

Lenin on The American people

The history of modern, civilised America opened with one of those great, **really liberating, really revolutionary wars** of which there have been so few compared to the number of wars of conquest. That was the war **the American people** waged against the British robbers **who oppressed America** and held her in colonial slavery.

About 150 years have passed since then. The American people, **who set the world an example** in waging a revolutionary war against feudal slavery, now find themselves in the latest, capitalist stage of **wage-slavery to a handful of multimillionaires**, and find themselves playing the role of **hired thugs**.
